Hi Karolina,

I had typed up this email but apparently forgot to click "send," as it was still saved in my "drafts" folder. I'm so sorry about that!

Here are the files that we need to add to the docket for the TX RH final rule (Docket ID: EPA-R06-OAR-2016-0611). There are six files that we need to add, including the Federal Register notice, which isn't available yet. I have not yet heard from the OFR liaison as to when it might get published, but I'll let you know as soon as I hear anything and will also send you the file once it's available. I imagine it may take some time for it to get published since it is a long notice. And as I understand, we have until the day of publication to post files to the docket, so this isn't something urgent that needs to be done right away.

As far as order, I imagine the FRN will go first in the docket, then the RTC document, and we have no preference as to the order of the remaining four files. For your reference, I also attached a spreadsheet listing all the files. The "Document title" column in my spreadsheet is just a suggestion for the document title you may want to use when you post the documents. The file names can stay as they are. Please let me know if you have any questions. And thank you for all your help along the way with this notice!

Thank you,

Dayana Medina
